

Sample LOR for Master's Program

Letter Of Recommendation

I am pleased to support Mr. Arjun Kapoor's application to pursue a Master's Degree at your university. I have known him through our academic interactions and was his professor for the subjects of Computer Networks and Operating Systems. Based on my impression of him, I can attest that he is a dedicated student with an innate curiosity towards the latest in technology and an equally strong will to learn.

He is keen on learning new concepts and complementing his enthusiasm for gaining correct conceptual understanding is his quality of being vocal about his doubts as he does not mind sharing his queries during lectures. His relevant and precise queries further reveal his intent of gaining deep domain expertise, clarity of thoughts, and the innovative mind he possesses. Despite his academic accomplishments, he is humble in his conduct and at the same time ensures professionalism in his interactions with others. He is confident while presenting presentations and seems capable of expressing his views clearly in front of any audience, be it his colleagues in the class or an expert panel. When participating in group activities, I have noticed him to be a perfect communicator, one willing to listen to different viewpoints and with ease can put across his opinions too.

I have also mentored him in practical sessions for the subject of Computer Networks, during which he significantly stood out in terms of his perseverance and showed flexibility to attempt multiple approaches. As his faculty, I think he is a step ahead of most of his peers when it came to experimenting with his learning and due to his creative abilities can view things from different perspectives. Furthermore, he is extremely serious about his work, diligently follows the guidelines given, and consequently meets all the associated expectations. On a personal level, he is focused on achieving holistic growth and his determination in achieving this goal was evident from his brilliant performance in extra-curricular activities. Throughout the coursework, he has participated in various events, served in different capacities within various student bodies, and assisted in arranging events as well.

In my opinion, the course that your university has to offer matches Arjun's interest in learning advanced concepts of (mention stream) and would provide him an opportunity to acquire in-depth subject knowledge and relevant skills. I, therefore, highly recommend his application. Please provide him with your favorable consideration.

Dr. Karthik Sharma
Associate Professor
