

Sample LOR for Master's Program

Letter Of Recommendation

I am writing this letter of recommendation to express my support for Mr. Devansh Verma's admission into (course name). I have known him since (first/second/final) year of his graduation program and instructed him as a Professor for the subject of (mention subject name here). Having observed his performance, I am of the opinion that he possesses an innate ability to grasp concepts quickly and with his strong analytical capabilities can decipher complicated logics requiring accurate assessment with ease.

Devansh was under my mentorship on his third year project titled, Depository Act, 1996 where he had to explain the project to panel, presenting which he spoke articulately and was appreciated by everyone, including me for his coherent explanation and preparedness on the topic. Additionally, in group discussions, he actively listened to other's opinion even if they were in complete contrast with his own view point, strived to establish consensus and considerably contributed with innovative ideas. Besides his skills, he creates an impact with his able intellect and can lighten up conversations and make them constructive and stimulating. As a student, he gives equal importance to overall personality development and despite his involvement in academic and project work, still manages to brilliantly perform in extra-curricular activities. Being a versatile personality, he enthusiastically participated in moot court activities and was involved in organizing multiple events at intra-college level.

He is both a bright student and a responsible team member and displays a high degree of commitment towards executing his assigned tasks diligently without compromising with the quality of the output to be achieved. His professional approach to work and positive thought process rubs on to the colleagues interacting with him as his optimism inspires them to be mature in their conduct, especially when it comes to executing crucial tasks. He is an amicable person and I have often noticed that him surrounded by classmates who have been extremely comfortable in asking him any doubts be it related to studies or career and he too makes attempt to help them as much as he can.

I believe the course will broaden the horizon of his knowledge, allow him leverage his relevant experience to explore wider scope of the subjects he finds interesting and would strengthen him professionally. Moreover, I see no reason that he will be anything other than an excellent addition to your institute, and I thus recommend him without any reservation.
