

Sample LOR for Master's Program

Letter Of Recommendation

I am writing in support of Mr. Varun Sharma's application for a Master's program from your esteemed university. I have known him since (mention year) and instructed him in the subjects of Data Structures, Database Management System, and Design and Analysis of Algorithms. Based on my observations, I recognize him as an excellent team player who possesses sound communication skills and has a keen interest in academics.

He is determined to be an academically brilliant student and throughout his graduation scored top grades consistently. His understanding of the fundamentals is exceptional and is equally competent in applying his knowledge practically in live scenarios. Apart from his stellar academic record, he catches attention with his active participation in various co-curricular and extra-curricular activities as well and has served within many student bodies in different capacities. He was the placement coordinator at the career development cell of the college and as a member of the organizing team was involved in logistics management for a hackathon named, "Hexahive 2.0". While working in these events, he was detailed oriented, prioritized well and also displayed exceptional coordination with his team members. Throughout his involvement in organizing and coordinating the event, he amazed everyone with his management skills, skillful planning, and remarkable execution capabilities.

Varun was under my guidance on his final year project aiming to create a virtual distributed library platform with book recommendations, where every user would act as a resource for books, and based on users' preferences would also receive recommendations. He proposed the idea for this project and also was given the responsibility to lead the project. As a leader, he was particular about conducting discussion regularly, communicated effectively in these meetings, and made sure the assigned tasks were completed within deadlines. On this project, from the onset, he impressed me with his leadership qualities as he was willing to share his experience and assisted his team members if needed. Further, his leadership style was indicative of his visionary approach of considering the bigger picture in mind and strived to achieve long-term goals by following a disciplined regime.

In my opinion, this course will provide Varun opportunities to strengthen his knowledge of the field he is interested in, and eventually would be instrumental in his development as a professional. I, therefore, recommend him wholeheartedly without any reservations.

Mr. Rajat Patel
Assistant Professor
ABC College
